Hollyland Hebei Hollyland Co.,Ltd.

Brief Introduction

HEBEI HOLLYLAND CO., LTD, was established in 2003, specialize in producing and exporting Stone Coated Steel Roofing Tiles. Our manufactory has strong technical strength and advanced equipment.

The Stone Coated Steel Roofing Tiles we produced with variety colors, have the features of no fading, light weight, water proof, reduce noise when raining, resistance of earthquake, fire & typhoon, very easy to be installed, convenient to be maintained, and comfortable to be used and etc.

We have passed the ISO9001:2000, the CE certification and SONCAP !

The products are exported to the markets of Southeast Asia, Africa, the Middle East and other parts of the world.

We also have a professional team to handle your orders, could meet or exceed your quality requirement, control the delivery date, packing and loading, handle any kinds of shipment by sea or air .

Enough experience have been accumulated during the years in our business, so that we can help you to reduce your International Sourcing Cost, and increasing your bottom line!

Our Mission: Your success is our target!

SMQ Shenzhen Academy of Metrology and Quality Inspection Safety Laboratory
Add: Bldg of Metrology & Quality Inspection , Longzhu Road, Nanshan District, Shenzhen, Guangdong, China

CERTIFICATE

No: 511171-DZ/GG

Applicant: Hebei Hollyland Co., Ltd
Address: 14F, Building A, Zhongliang Plaza, No.345 Youyi North Street Shijiazhuang, Hebei Province, China
Product: Colorful Stone Coated Metal Roof Tile
Model No.: N/A
Test Standard: EN 508-3: 2009

The EUT described above is tested in Shenzhen Academy of Metrology and Quality Inspection Safety Laboratory. The safety laboratory is assumed full responsibility for the accuracy of the test results. The certificate shows that the EUT technically complies with the council 89/106/EEC directive requirements.

The certificate applies to the tested sample above mentioned only and shall not imply an assessment of the whole production.

STONE COATED STEEL ROOFING TILE

All tile coatings are applied after pressing, there are no problems with crazing or micro-cracking.

Advantages of stone coated steel roofing tile

● Economy

The Stone Coated Roofing Tile has big coverage. It can cut down the cost of physical distribution and installation. Once installed, later maintenance cost very little, almost negligible.

● Simple Construction

The Stone Coated Roofing Tile has light weight. It's very easy to cut and bend. It could also be fastened on the wooden or steel battens, so it's suitable for all kinds of buildings.

● Recycling

The base board of the Stone Coated Steel Roofing Tile is Zinc-aluminum steel. 90% ingredients can be recycled, then reduce building cost.

● Long Lifetime

The Zinc-aluminum steel has high corrosion resistance. It has excellent durability with multilayer protective films. Its life span can be extended to 30 years!

● Beautiful Appearance

The surface of Stone Coated Roofing Tile are natural stone chips in various colors. Extensive flexibility of colors and profiles provide various building design.

● Fire Resistance

The main materials are Zinc-aluminum steel and natural stone which have strong fire resistance.

● Storm Resistance

No leakage occurs after prolonged exposure test. It could also reduce the noise when raining.

● Heavy Wind Resistance

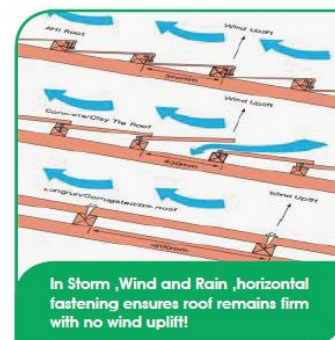

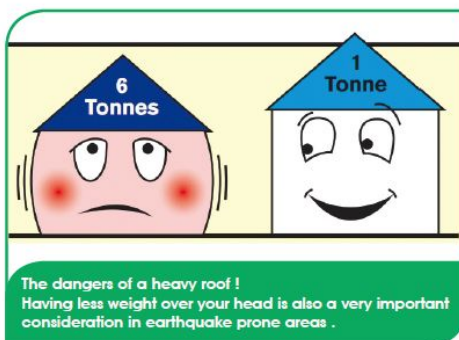

It is installed by horizontal nailing method which could prevent the tiles lifted up in heavy wind.

● Hail Resistance

Stone Coated Steel Roofing Tile can resist cold, frost and slip etc. It can also reduce the weight of snow on the building.

● Earthquake Resistance

The weight of Stone Coated Steel Roofing Tile is just one sixth of traditional concrete or clay tile. It could lighten the building and has excellently resistant ability.
